

The *Institute for Functional Nanomaterials* (IFN) is accepting applications for doctoral internships in the area of **Nanotechnology** only.

2016 Graduate IFN Summer Internships

(Period June 6 – August 6)

Stipend \$2,300 monthly

Application Requirements:

- Have a minimum 3.0 GPA on 4.0 scale
- Evidence of Ph.D. candidacy
- Evidence of satisfactory academic progress according to the program's schedule
- Official transcript from undergraduate and graduate institutions
- Applicants must have as their mentor/advisor an IFN Researcher by the time that the fellowship is awarded.
- Two letters of recommendation (download online reference form): **one must be from your IFN mentor** and one from another nanotechnology researcher. The letter from the IFN mentor/advisor must state the specific IFN project in which the student will be working.
- Brief thesis research proposal (3-4 pages max) signed by the IFN mentor
- List of authored or co-authored publications and presentations. Make two lists: a) Publications and presentations **after** entering the doctoral program ; b) Publications and presentations **before** entering the doctoral program
- Download and complete the application form and submit with all required documents

Application Deadline: Friday, May 20, 2016

Awards are subject to availability of funds.
